November 2, 2012

Dear Friends and Neighbors:

Whenever we come home, we think about how lucky we are to live in Riverwoods. Perhaps you do, too. Our Village is a diverse collection of different areas worth preserving. Since 2006, the RPC has worked closely with our local officials and other volunteer organizations to do just that. We need your help.

Ecological matters affect all of us to some degree or another. We have a common interest in such issues as maintaining or increasing property values, keeping water safe and plentiful, reducing the cost of services such as garbage pick up, mitigating property flooding, and controlling pest-related disease. These are *our* issues, not someone else's.

We feel it's important for Riverwoods to have an organization such as the RPC that is citizen volunteer-based and acts right here where we live. Our focus is on the health and future of Riverwoods' ecology. We formally seek your financial support once a year and now is that time. Your contribution can help us reinforce, augment and extend the efforts of our local governments without the need for increased taxes or further regulation.

### ***What has the RPC done this year?***

- Conducted the annual Riverwoods Roadway Cleanup.
- Constructed the first rain garden in our pilot program studying natural methods of handling standing water in our community.
- Presented a program that encouraged residential recycling and the reduction of waste disposed in local landfills.
- Sponsored a very successful shoe recycling drive (655 pairs of shoes).
- Co-sponsored a garlic mustard pull (400 pounds of garlic mustard pulled).
- Encouraged residents' use of Village cost-sharing programs for planting native trees, shrubs and understory plants (and saw a substantial increase in use).
- Co-sponsored a program on area wildlife with Lincolnshire and Bannockburn.
- Published bi-monthly reports on Village Board meetings and articles in the Village Voice.

### ***What will the RPC do in the future?***

- Construct additional rain gardens in the Village to investigate stormwater management.
- Work with the Village to develop educational materials for the reforestation area near the corner of Deerfield and Saunders Roads.
- Seek ways to recycle materials that are not currently part of our Village collection system, monitor ongoing recycling rates in the Village and again conduct a shoe recycling drive.
- Present free programs relating to local ecological topics.
- Continue to encourage the use of the Village cost-sharing forestry and ecology programs, send Board reports and submit relevant articles to the Village Voice.
- Conduct the annual Riverwoods Roadway Cleanup.

**Riverwoods is known throughout the area for independent residents and unique environments. This is a dream town with a lot of community pride. We aren't going to let it slip away. Please complete and return the form on the back of this letter with your tax-deductible contribution. Thank you!**

**Riverwoods Preservation Council**  
**PO Box 122**
